Audio/Visual and Cable Installation Technician

Gateway Sight & Sound, a subsidiary of Gateway Engineering, Inc., is a home automation and custom electronics integrator, based in Jonesboro, Arkansas. Gateway Engineering has more than 20 years of experience in the industrial automation sector and Gateway Sight & Sound will build on that experience with expertise in the residential and light commercial markets. We are seeking highly motivated and qualified professionals to join our growing team.

The Audio/Visual and Cable Installation Technician will work as a full-time employee as part of a team, under the supervision of the General Manager, to install audio/visual and low voltage systems, equipment, and cable.

Qualifications:

- High school diploma or equivalent preferred, not required.
- 1-2 years of experience installing residential and/or light commercial electronic systems preferred.
- Must be able to lift 50 pounds, climb a ladder, and work on your feet for a full work day.
- Must have valid driver’s license and clean driving record.
- Successfully pass a drug screen.

Job Duties and Desired Skills:

- Ability to read drawings and identify needed material.
- Understanding of control systems for distributed audio, video, and home theater systems. Experience with Control4 a plus.
- Knowledge of residential and light commercial systems integration, including audio/video, lighting, shades, climate control, security, CCTV, and computer networks. Ability to install components for these systems.
- Ability to install low-voltage and network cable and related hardware, such as Cat 5/6 cable, data jacks, routers, network switches, and wireless access points.
- Proficient with hand and power tools to complete physical installations of speakers, displays, equipment racks, and lighting panels.
- Knowledge of construction techniques and wiring methodologies for new construction and retrofit projects, including structured wiring and panelized lighting.
- Ability to diagnose and troubleshoot problem installations at a system and component level.
- Ability to setup, configure, calibrate, and commission equipment after physical installation.

Benefits:

- Compensation commensurate with experience
- Full-Time Employment
- Medical and dental benefits
- Short-term, long-term, and life insurance
- Paid vacation and holidays
- Training
